Brewer's®

Made with Upcycled Grains

Made using Up-Cycled brewery grains, a valuable byproduct from the beer making process. When making beer, brewers steep super high-quality grains -- like barley, in water. They strain this mixture, keeping the liquid to make beer, and discard the "spent" grains. These grains are still incredibly flavorful and nutritious. Brewer's Crackers up-cycles these saved grains into flatbreads to reduce food waste.
